SERIOUS COLD WAVE COMING FROM CANADA

All Shipping in English Channel at Standstill Because Of Storms

CHICAGO, Dec. 7.—What may prove the most serious cold wave thus far this season was advancing out of the Canadian northwest toward the Central States today, according to weather forecasters here.

Zero temperatures prevailed today in Northwestern states and in Canada the mercury had sunk far below the zero point, according to forecasts here.

Early today a temperature of 30 below zero prevailed along the Great Slave river in Canada, it was reported.

C. A. Donnel, local forecaster, intimated that the approaching frigid wave appears to be the most severe thus far this season.

CHANNEL TIED UP

LONDON, Dec. 7.—Virtually all shipping in the English channel was brought to a standstill today as a result of the furious gales which have swept all Britain during the last few days, causing the loss of 26 lives. Most of the casualties occurred in accidents to shipping.

After a few hours' respite, the storm broke with renewed fury again last night, uprooting trees, damaging a number of houses and buildings and demolishing transportation all through England.

London felt the full fury of the gale, which was accompanied by an electrical display uncommon in this country.

The Italian tanker Lucania was driven ashore at Dover during the night, while the French steamer Ornaiz II was wrecked off Penzance. The crew of the Ornaiz was rescued by lifeboats putting out from shore, and the Lucania was refloated with the high tide.

All channel boats operating between Calais and Boulogne, one of the principle routes from England to the continent, were tied up at their piers today, unable to venture out into the wind-tossed channel.

More than a half dozen vessels have been rendered helpless by the storm, and in some cases rescue boats were not able to arrive in time to spare loss of life. The steamship Frances Duncan foundered off lands end with the loss of 16 lives, while an Irish fishing boat was swept out to sea with its entire crew.

'See You Later,' Auxiliary Musical Comedy, Enacted Successfully Friday

"See You Later," the musical comedy which was presented at the Memorial Hall Friday night under the auspices of the American Legion Auxiliary was one of the best amateur shows ever seen in Circleville.

Every member of the cast performed his or her part without hesitation and the show moved along with precision.

Special mention should be given Miss Iona Miller who acted as accompanist. She was present for all rehearsals and gave much of her time for the show.

The costumes and the dances of the choruses added much to the success of the performance.

The specialty acts, the dance numbers by Miss Jean Crow and Miss Marvina Wallace were especially pleasing and were enthusiastically received by the audience.

Both these young ladies have been seen in home talent shows in Circleville before and their names were a drawing card on the program.

The other specialty number, a song by Jimmie Mason, was also well received and pleasantly delivered.

Clerk Asks Car Owners to Have Bills of Sale Properly Filled Out Soon

Since it is necessary to secure a properly filled bill of sale before an automobile license can be issued, Clerk of Courts Ferd Pickens asks that automobile owners get their bills of sale properly registered before the last minute rush which causes much consternation to clerks.

The 1930 license plates are on sale now and can be installed on and after December 21. Those who operate their machines without 1930 tags after Jan. 1, 1930, will be prosecuted. The police department has received orders from the state motor vehicle department to give no leeway to drivers after December 31.

Automobile tags are on sale by Deputy Commissioner B. T. Hedger.

Harp Van Riper visited Mrs. Van Riper at Mercy hospital in Portsmouth Friday. Mrs. Van Riper is resting comfortably but will remain a patient at the hospital for three more weeks. She was injured in an automobile accident several weeks ago.

SENATOR NYE TO CHALLENGE APPOINTMENT

Political Eye of Nation Turns To Pennsylvania Senatorial Situation

By WILLIAM K. HUTCHINSON
WASHINGTON, Dec. 7.—The political eyes of the nation were turned on Pennsylvania today where Governor John S. Fisher was contemplating the appointment of a Republican to occupy the senatorial seat left vacant when the Senate barred both Senator-Elect William S. Vare and his Democratic opponent, William E. Wilson.

The prospect of a new battle to bar Pennsylvania's choice for this junior senatorship increased political interest in the situation. A bold threat to challenge the admission of Joseph R. Grundy, president of the Pennsylvania Manufacturers' Association, or "any other member of that crowd," already has been voiced by young Senator Nye (R) of N. D., although with little members of the Democratic-Insurgent coalition.

The name of Grundy, who has been a financial angel to the Republican party for the last quarter century, has headed the list of prominent Pennsylvanians available for the appointment. Rumors have persisted that he will be tendered the appointment, though reports conflict over his likelihood to accept it. While at first, his friends were certain he would not enter public life after 40 years in the showboos, a noticeable change of sentiment now indicates he will accept the senatorial toga if it is tendered.

Grundy can take it too without fear or being barred as were Vare and Wilson. Despite Nye's threat, it appeared entirely probable the Senate would seat him without inquiry on the strength of his appointment. This course is favored by Senator Norris (R) of Nebraska, the insurgent leader, who directed the fight against Vare.

In an exclusive statement, Norris told International News Service he did not agree with Nye's position.

"If Mr. Grundy is appointed, he should be seated," said Norris. "I know of now valid reason why he should be barred. It may be true he spent large sums of money in the Pennsylvania campaign but his money was not spent to buy the seat. If there is no evidence of fraud in his appointment and no evidence he has bought the appointment from the Governor, there will be no cloud on his title to the seat and he should be seated."

The declaration by Norris sounded a deathknell to any proposal to bar Grundy. There may be a battle over seating Grundy or one of his close associates, but without Norris' leadership and support, the movement would prove abortive.

If appointed and seated, Grundy probably will face a stormy career in the senate. There is no doubt he will be properly hazed by his colleagues, who are still smarting under the charge that many of them represent "backward states."

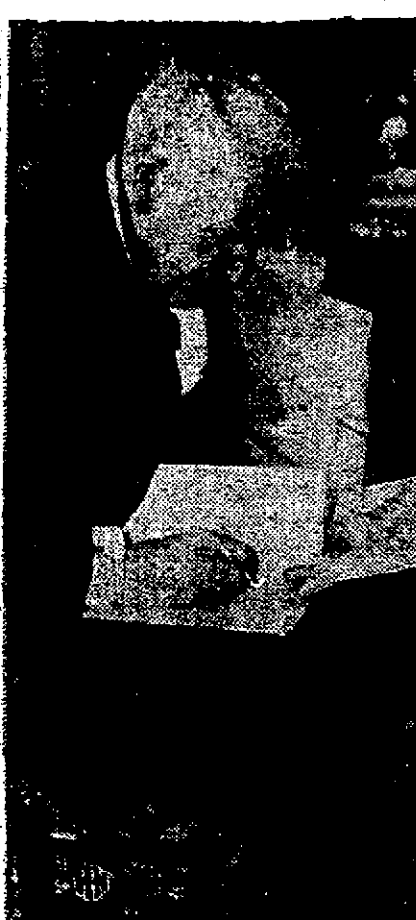

In all likelihood, they will try to demonstrate to the country that a Grundy in the Senate is far less powerful than a Grundy in private life, with his hands on lavish purses.

Thus far, Grundy has won fame as a collector of Republican campaign funds and as the "granddaddy of all lobbyists." In the last two presidential campaigns, he was credited with raising campaign funds running into millions of dollars. In one Pennsylvania senatorial election, he was credited with raising \$300,000 at one swoop. During the recent tariff wars, he also was credited with having written most of the high industrial cases into the new bill, otherwise, he has occupied an obscure part in national politics.

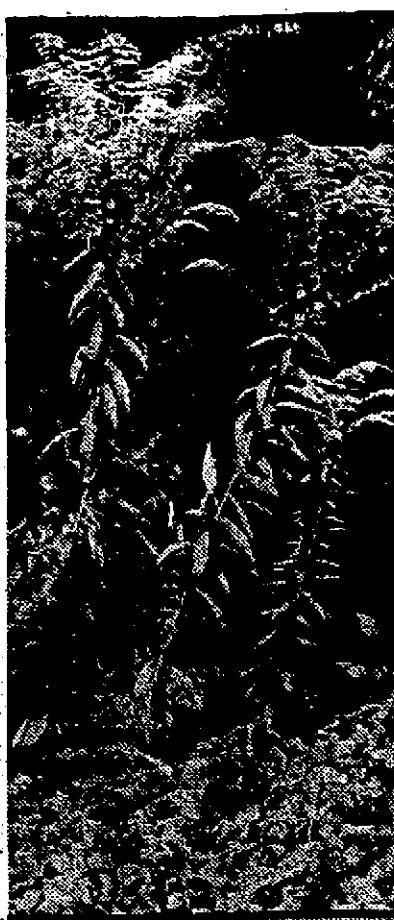

The movement against him, however, will find some sympathy in the senate. There was a feeling among some senators that if Vare was barred for spending nearly \$500,000 in his primary, the seat should never be given to anyone intimately connected with an opposing ticket in the same campaign which spent \$1,500,000. This was the campaign fund credited to the Mellon-Fisher-Pepper-Grundy ticket in the campaign that Vare won but which cost his seat in the end.

Miss Evangela Smith of Ohio State university is spending the week-end at home.

Department of Commerce Investigates Two Theories Fatal Nelson Crash

PLAINFIELD, N. J., Dec. 7.—Col. Charles A. Lindbergh, one of the closest friends of Thomas P. Nelson, airmail pilot who lost his life when his plane crashed near Chagrin Falls, Pa., arrived here today for the funeral services.

Lindbergh, with other of the pilot's former comrades, will act as pall-bearer.

CLEVELAND, Dec. 7.—Two theories of the airplane crash that took the life of Thomas Perry Nelson, air mail pilot, whose battered body was found alongside his wrecked craft in Chagrin Valley after a three-day search, were being investigated by inspectors of the U. S. Department of Commerce today.

Reports from air men at Clarion, Pa., that the motor of Nelson's plane seemed to be missing when he passed over Clarion early Monday, led to the belief that motor trouble may have forced the flyer down to an unfortunate landing.

Local airmen, however, stated that it was entirely possible that the wings of Nelson's plane may have become so ice-coated that the pilot lost control. Nelson was battling a blinding snowstorm on his route here from Bellefonte, Pa., last Monday morning when he was last heard from alive.

Expect Senate to Confirm Hoover's Appointee Early Next Week

WASHINGTON, Dec. 7.—The nomination of Assistant Secretary of War Patrick J. Hurley, of Tulsa, Okla., to be Secretary of War to succeed the late James W. Good, is expected to be confirmed by the Senate next week without opposition.

President Hoover sent the name of the soldier, lawyer, executive, to the senate late yesterday. In making the announcement he called attention to Hurley's fine war record and said it gave effect to the wish of the southern states for a representative in the cabinet.

Hurley was a practicing lawyer in Tulsa prior to his appointment as assistant secretary March 12, last, being attorney for the Choctaw Indian tribe. During the war he saw service in France and participated in three major engagements. He was decorated twice once with the Medal of Honor for his work as judge advocate with the first army and again the Silver Star citation for gallantry in action.

He is a member of President Hoover's "medicine ball cabinet" and has been attending the cabinet sessions since he became acting secretary. Hurley had the endorsements of virtually all the Southern states for the appointment. President Hoover said and it has been known for some weeks that he was slated for the post. He was summoned to the White House an hour before the announcement of the appointment was made, but was silent concerning the visit.

HEART ATTACK PROVES FATAL TO C. MEEKER

Democratic Leader, Well Known Here, Dies in Columbus Hotel Suite

Claude Meeker, Columbus, well-known in Circleville, wealthy broker, author and Democratic leader, is dead today as the result of a heart attack which claimed his life in his suite in a downtown hotel in Columbus late yesterday afternoon.

Meeker, a Democratic leader in the state, was chairman of the Ohio delegation to the Democratic national convention at Houston, Texas.

After the first roll call, Al Smith, who was defeated in the election by President Hoover, lacked a few votes for the nomination.

At this point, Meeker arose and announced that the Ohio voters would go to Al Smith and be withdrawn from Alton Pomerene, "favorite son" candidate. It was the most dramatic and vivid point in the convention. Smith's nomination followed.

Meeker started his career in life as a newspaper reporter when he was 17 years of age. He soon became widely known for his political writings and after serving as secretary to former governor, James Campbell.

He became more widely known as a political figure and in 1893 he was appointed by President Grover Cleveland as United States consul to Bradford, Yorkshire, England, which was then regarded as an important post inasmuch as it was the "wool" center of the world.

He remained in England four years. After he returned to this country, he returned from the public eye and although his political activities never broke into print, he was generally the man behind the scenes.

SENATOR NYE TO CHALLENGE APPOINTMENT

Political Eye of Nation Turns
To Pennsylvania Senator-
ial Situation

By WILLIAM K. HUTCHINSON
WASHINGTON, Dec. 7.—The
political eyes of the nation were
turned on Pennsylvania today
where Governor John S. Fisher
was contemplating the appoint-
ment of a Republican to occupy the
senatorial seat left vacant when
the Senate barred both Senator-
Elect William S. Vare and his
Democratic opponent, William B.
Wilson.

The prospect of a new battle to
bar Pennsylvania's choice for this
junior senatorship increased polit-
ical interest in the situation. A
bold threat to challenge the admis-
sion of Joseph R. Grundy, presi-
dent of the Pennsylvania Manu-
facturers' Association, or "any other
member of that crowd," already
has been voiced by young Senator
Nye (R) of N. D., although with lit-
tle members of the Democratic-Insur-
gent coalition.

The name of Grundy, who has
been a financial angel to the Re-
publican party for the last quarter
century, has headed the list of pro-
minent Pennsylvanians available
for the appointment. Rumors
have persisted that he will be ten-
dered the appointment, though re-
ports conflict over his likelihood
to accept it. While at first, his
friends were certain he would not
enter public life after 40 years in
the shadows. A noticeable change
of sentiment now indicates he will

it appeared entirely probable the
Senate would seat him without in-
quiry on the strength of his ap-

he spent large sums of money in
the Pennsylvania campaign but his
money was not spent to buy the
seat. If there is no evidence of
fraud in his appointment and no
evidence he has bought the ap-
pointment from the Governor,
there will be no cloud on his title
to the seat and he should be seat-
ed."

The declaration by Norris sound-
ed a deathknell to any proposal to
bar Grundy. There may be a bat-
tle over seating Grundy or one of
his close associates, but without
Norris' leadership and support, the
movement would prove abortive.

If appointed and seated, Grundy
probably will face a stormy car-
eer in the senate. There is no
doubt he will be properly hazed by
his colleagues, who are still
smarting under the charge that
many of them represent "back-
ward states."

In all likelihood, they will try to
demonstrate to the country that a
Grundy in the Senate is far less
powerful than a Grundy in private

pursestrings.

Thus far, Grundy has won fame
as a collector of Republican cam-
paign funds and as the "grand-
daddy of all lobbyists." In the
last two presidential campaigns,
he was credited with raising cam-
paign funds running into millions

Department of Commerce In-
vestigates Two Theories
Fatal Nelson Crash

PLAINFIELD, N. J., Dec. 7.—
Col. Charles A. Lindbergh, one of
the closest friends of Thomas P.

life when his plane crashed near
Chagrin Falls, Pa., arrived here
today for the funeral services.

Lindbergh, with other of the
pilot's former comrades, will act

CLEVELAND, Dec. 7.—Two
theories of the airplane crash that
took the life of Thomas Perry
Nelson, air mail pilot, whose bat-
tered body was found alongside
his wrecked craft in Chagrin Val-
ley after a three-day search, were
being investigated by inspectors
of the U. S. Department of Com-
merce today.

Reports from air men at Cla-
rion, Pa., that the motor of Ne-
son's plane seemed to be missing
when he passed over Clarion ear-
ly Monday, led to the belief that
motor trouble may have forced
the flyer down to an unfortunate
landing.

Local airmen, however, stated
that it was entirely possible that
the wings of Nelson's plane may
have become so ice-coated that
the pilot lost control. Nelson was
batling a blinding snowstorm
on his route here from Bellefonte,
Pa., last Monday morning when
he was last heard from alive.

J. B. Stevenson, Wayne-twp Harvests 451 Bushels of Potatoes in Acre

Four hundred fifty one and one-
third bushel of potatoes per acre
are lots of potatoes to harvest
from one acre.

J. B. Stevenson, of Wayne-twp.,
who has been regularly enrolled in
the Potato Club sponsored by the
Horticulture Department, Ohio
State University and the county
Farm Bureau for a number of
years did this. Mr. Stevenson used
the Carmen variety, a white rural
and harvested a yield of 451 1-3
bushels of potatoes from his plot,
surpassing by a very substantial
margin the 400 bushels required in
the 400 Bushel Potato Club as it
stands today.

Mr. Stevenson plowed down a
clover and timothy sod which had
been manured the summer before
at the rate of eight tons of shed
and yard manure. The ground was
plowed Nov. 15, and replowed last
April. The crop was planted
April 26, at the rate of 21 bushels
of seed per acre. Fertilizer was
applied at the time of planting at
the rate of 1000 pounds of 4-24-12
per acre.

The potatoes were plowed once
and weeded one time before the
application of straw. The crop was
grown under straw, twelve loads of
straw being required to cover the
acre of potatoes.

To combat insects and check dis-
eases, Mr. Stevenson used a dust-
ing method. The dust was prepar-
ed by using 12 one-half pounds of
Monohydrated Copper Sulphate
to 50 pounds hydrated lime. The
crop was given seven dusting ap-
plications.

To get maximum yields of pota-
toes it is necessary to keep the
vines healthy and green since the
leaves manufacture the crop. To
accomplish this it is necessary to

either dust or spray as a means of
repelling insects which carry the
most of the fungus infections of
the potato crop. Mr. Stevenson
has been a member of the 300 bu-
shel potato club and this is the
second time that he has accom-
plished the feat of surpassing the
requirements of the 400 Bushel
Potato club.

HEART ATTACK PROVES FATAL TO C. MEEKER

Democratic Leader, Well
Known Here, Dies in Co-
lumbus Hotel Suite

Claude Meeker, Columbus, well-
known in Circleville, wealthy
broker, author and Democratic
leader, is dead today as the re-
sult of a heart attack which
claimed his life in his suite in a
downtown hotel in Columbus late
yesterday afternoon.

Meeker, a Democratic leader in
the state, was chairman of the
Ohio delegation to the Democratic
national convention at Houston,
Texas.

After the first roll call, Al
Smith, who was defeated in the
election by President Hoover,
lacked a few votes for the nomi-
nation.

At this point, Meeker arose and
announced that the Ohio votes
would go to Al Smith and be
withdrawn from Atlee Pomerene,
"favorite son" candidate. It was
the most dramatic and vivid point
in the convention. Smith's nomi-
nation followed.

Meeker started his career in
life as a newspaper reporter when
he was 17 years of age. He soon
became widely known for his po-
litical writings and after serving
as secretary to former governor,
James Campbell.

He became more widely known
as a political figure and in 1893
he was appointed by President
Grover Cleveland as United States
consul to Bradford, Yorkshire,
England, which was then regard-
ed as an important post inasmuch
as it was the "wool" center of the
world.

He remained in England four
years. After he returned to this
country, he retired from the pub-
lic eye and although his political
activities never broke into print,
he was generally the man behind
the scenes.

TWO APPEALS CASES HERE

Court Judges Will Not Stop
Here to Hear Suits But
Will go to Chillicothe

Since there are only two cases
pending in the Pickaway-co court
of appeals, Clerk Ferd M. Pickens
announced that the judges will not
stop here to hear the cases but
will go to Chillicothe where these
two cases will be decided.

Those pending here are Sid
Wolfe against the State of Ohio
and Watson against Watson. Dec-
11 has been set for the date of the
Watson trial.

Locals Lose to St. Mary's In Rough Battle

LATEST WRESTLING TACTICS EMPLOYED IN 35-15 GAME

In a basketball contest which in a large way resembled a football battle, the Circleville high school court team went down to defeat in its opening game at the hands of the Lancaster St. Mary's quintet by a count of 35 to 15. The game was played in the St. Mary's spacious gymnasium Friday evening. Exhibiting all the latest holds in dancing, wrestling, Swiss Schwing-fests, jui-jitsu and what have you, the game was so far past the referee after the first two minutes that he never did catch up to it after that, and socks and busts, body blocks and all other forms of rough and tumble tactics were employed ere the game had progressed very far.

Pickaway County Basketball Loop Opens With Good Games

The Pickaway-co basketball league opened in all its splendor Friday evening with many games being contested to the final whistle. Several upsets were found as the lineup is scrutinized, the principal one of which is New Holland's two point defeat of Ashville's team 18 to 16.

Following are the complete results of both the boys' and the girls' games.

BOYS' GAMES
Perry-twp., 24, Monroe-twp., 18, at Atlanta.
Deercreek-twp., 22, Scioto-twp., 7, at Scioto-twp.
Pickaway-twp., 18, Saltcreek-twp., 16, at Pickaway-twp.
New Holland, 18, Ashville, 16, at New Holland.
Jackson-twp., 42, Washington-twp., 16
Muhlenberg-twp., 15, Walnut-twp., 9

GIRLS' GAMES
Perry-twp., 29, Monroe-twp., 12, at Atlanta.
Scioto-twp., 33, Deercreek-twp., 11, at Scioto-twp.
Pickaway-twp., 2, Saltcreek-twp., 0, (Forfeit)
Ashville, 37, New Holland, 11, at New Holland.
Jackson-twp., 13, Washington-twp., 11, at Jackson.
Walnut-twp., 24, Muhlenberg, 7, at Darbyville.

Both games at Atlanta were very fast with the Perry-twp. athletes, both boys and girls, showing slightly more class than their opponents. The Perry girls jumped into an early lead which they held throughout the contest.

The boys battle was a real one with only a few separating the teams at any time. A last period spurt put the game on the ice for the winners. Joe Lynch refereed.

the game.

DEERCREEK-SCIOTO
The Williamsport girls' team couldn't cope with the rapid fire offensive of the Scioto-twp girls and at the start of the game they found themselves under a handicap that they couldn't overcome. The score was 33 to 11.

Williamsport boys put a much different complexion on the evening's activities when they stepped out to grab a well-deserved victory from the Scioto boys, 22 to 7. Anderson and Tommy Tomlinson were the stars of the Williamsport team, while Davis, McClure and Lamb played good ball for the losers. Steven, Columbus, refereed the games.

SALT-CREEK-PICKAWAY
The game between the Saltcreek and Pickaway-twp girls was fast for three periods but with the score standing 13 to 11 at the start of the fourth session, Coach Dyer of the Saltcreek team removed his team from the floor claiming that many personal fouls called should have been technicals. The game was given to the Pickaway girls by a score of 2 to 0.

Pickaway boys, largely through the work of Graves, a substitute came from behind to defeat the Saltcreek boys in an overtime game by a score of 18 to 16. Saltcreek outplayed the losers in the first half which finished 10 to 4 in their favor, but Graves going hot they came from behind to tie the count with 15 seconds to play. Paxton scored an action goal to place the game on the right side of the ledger. Spangler starred for Saltcreek. George Stoker refereed the game.

ASHVILLE-NEW HOLLAND
A poorly played first half by Ashville five gave New Holland,

defending champs the edge they needed and although Ashville spurred considerably in the final half of the game they overcame Saltcreek lead. The game ended 18 to 16.

Ashville girls, however, upheld the prestige the boys lost when they experienced little trouble in putting the New Holland girls down by a 37 to 11 count. Young, Conrad and Schlegel starred for the winners while Timmons was best for the losers.

JACKSON-WASHINGTON
The Jackson and Washington girls furnished the thrill of the evening in their contest which ended 13 to 11 in favor of Jackson.

Neither team held much of an edge at any time with the score zig zagging back and forth throughout the four periods.

Fortner and Wagner starred for Jackson, and Marshall and Goodman for Washington.

The Jackson boys, scored the highest total of the opening night with 42 against Washington Boys 16. Price, Wagner and Thatcher were best for the Laps-coached quintet with Valentine and Leist the best for the losers.

MUHLBERG-WALNUT
In a fast defensive game, the Muhlenberg boys proved too good for the Walnut boys and at the end of the contest held a lead of 15 to 9.

Miss Peters' girls showed class to balance the lost contest of the boys team by winning their game 24 to 7.

The games were played at Darbyville. With the first weeks schedule played, county coaches know just what the strength of their teams are and can prepare accordingly for the strenuous schedule which awaits them.

Explaining Odd Names
When the founder of Tombstone, Ariz., was starting out on his prospecting tour, he was assured that he would "find his tombstone." Thus the town was named. Flagstaff was named from a pole set by a party of emigrants who camped near and celebrated the Fourth of July.

Jerusalem's Walls
There is much controversy as to the exact dimensions of the ancient wall of Jerusalem. The modern wall which followed as closely as possible the ancient wall had a circuit of two and a half miles with an average height of 35 feet, with 35 towers and eight gates (one of which was walled up).

When A Brick Has Value

A finished brick has no value when it is isolated, when it lies alone, however sound and pleasing it may be; but together with other bricks, it may form a house, a church, a school, an office or a university building.

The lonely brick is like many a person who does not feel the need of going to church and becoming a member of a church organization. Alone he can accomplish little and

will probably drift away from religion and the church. Since he does not have the needed moral restraint the church gives, he often becomes a moral derelict. Together with his fellowmen, he can effect a religious force which will accomplish great things for God and man. Why not accept the invitation and COME TO CHURCH NEXT SUNDAY?

Creamed Comments On S.S. Lesson

Helping Neighbors in Need, Matthew 25:31-46 for Sunday, December 8.

This discourse was delivered on Tuesday preceding Christ's crucifixion. Because of Jesus' entry, the hatred of his religious enemies became intense; but his teaching lost none of its sharpness and pungency because of hostility; he spoke the truth that was needed then and now at the cost of death.

V. 31. "But when the Son of man shall come in his glory, and all the holy angels with him, then shall he sit on the throne of his glory." The Saviour will be judged at the last day, speaking with authority with all heaven as his witnesses.

V. 32. "And before him shall be gathered all nations; and he shall separate them one from another, as the shepherd separateth the sheep from the goats." The "all nations" means all people of all time; separation from God and from those counted dear in this world ought to help us live soberly and righteously in this life.

Vs. 34, 35, 36. "Then shall the King say unto them on his right hand come ye blessed of my Father, inherit the kingdom prepared for you from the foundations of the world; for I was hungry and ye gave me to eat; I was thirsty and ye gave me drink; I was a stranger and ye took me in."

Those who have accepted the invitation "Come" on earth will hear it again at the judgment day. When one has lived his best he does not merit what is promised in the world to come, hence the use of the word inherit. The pronouncement of divine acceptance is based on the unconscious doing of deeds for others as a natural expression of the soul, as indicated in the next three verses.

Jesus knew what it was to be hungry, thirsty, lonely and in need of clothing, heart-sick, treated as a prisoner. The spirit of Christ in a man helps him to sense quickly all needs of others and to supply them to the extent of his ability and forgetting that he did any good thing.

V. 40. "And the King shall answer and say unto them, verily I say unto you, inasmuch as ye did it unto one of these my brethren, even these least, ye did it unto me." We fail to see things as they are; we forget that in some mysterious way Christ identifies himself with every true child of his so that we are unconsciously serving him when we serve those he loves, even though they be of another color, race or creed.

Vs. 41, 42, 43. "Then shall he say unto them, on the left hand, depart from me, ye cursed, into the eternal fire which is prepared for the devil and his angels; for I was hungry and ye did not give me to eat." It will be one's record that the judge will present so that really the wrongdoer will be his own doings. Note that these denounced may be those not counted bad folks in the world, not guilty of crimes under our form of government but guilty of failure to perform imperative duties for the welfare of others.

V. 46. "And these shall go away into eternal punishment, but the righteous shall inherit the kingdom." The Ohio Council of Churches will celebrate the 1900th anniversary of the founding of the Christian church at a great convention to be held in Columbus, Ohio, Jan. 20-24, 1930.

The two books of Dr. E. Stanley Jones, well-known missionary to India, entitled "Christ at the Round Table" and "Christ of the Indian Road," have been translated into Dutch, German, Swedish, Japanese, Arabic, Norwegian and several other languages.

Julius Rosenwald, prominent Jewish philanthropist of Chicago has offered a prize of \$10,000 for the best essay on the future of American Judaism. The contest is open to the public. Details can be secured by writing to Dr. Simon Beardsley, Federation Building, 71 W. 47th street, New York City.

into eternal punishment; but the righteous to life eternal." If a man will not repent here it is not likely he would repent later. The Old Testament's burning message was to repent. It is the big word in the New Testament; it was the theme of the messages of Christ, of John the Baptist, of Peter on the day of Pentecost.

Education for Peace

Permanent and secure peace must rest upon a foundation of understanding and friendly relationships. Such a foundation can only be built by the gradual process of education.

One significant gathering held in England last summer should have a far reaching influence for the cause of peace. Fifty thousand Boy Scouts from nearly fifty countries participated in a world jamboree. When these 50,000 boys were getting ready to break camp, their chief spoke the following words:

"From now on the Scout symbol of peace is a golden arrow. From the northlands, southlands, eastlands and westlands you came at the call of my horn to this gathering. Today I send you back as my ambassadors of peace to the nations of the world."

Locals Lose to St. Mary's In Rough Battle

LATEST WRESTLING TACTICS EMPLOYED IN 35-15 GAME

In a basketball contest which in a large way resembled a football battle, the Circleville high school court team went down to defeat in its opening game at the hands of the Lancaster St. Mary's quintet by a count of 35 to 15. The game was played in the St. Mary's spacious gymnasium Friday evening.

Exhibiting all the latest holds in dancing, wrestling, Swiss Schwing-fests, jui-jitsu and what have you, the game was so far past the referee after the first two minutes that he never did catch up to it after that, and socks and busts, body blocks and all other forms of rough and tumble tactics were employed ere the game had progressed very far.

SCORE FIRST

The Tigers scored first when Heiskell broke loose under the basket and scored a pot shot. But that was the extent of Red and Black scoring in the opening session. Berens, tall center, scored two shots from back of the foul line and Spires evaded Heiskell to score a field goal to make the Lancaster total six at quarter-time.

The second period proved the downfall of the Circleville team when St. Mary's tossers scored nine points against three. Berens again came through with two field shots, Spires connected for a fielder and a free throw and Hoch scored a bucket. Circleville's three points were scored by Davis from the side and a charity toss by Russell.

In the entire first half not one personal foul was called. Circleville's four goal came when Daugherty was called for catching the ball after he had tipped it. A technical foul was called on Wilson when he went on the floor while the ball was in play.

The third quarter was a repetition of the first two with Lancaster scoring 10 points against three for Circleville. Jaggy Davis' three foul shots were the Tiger quota.

Scoring was even in the last session when each team scored 10 points. Hill and Wilson each scored a foul, Nickerson hit for a field goal and Davis scored a field and a foul goal.

Berens' center, and Spires, left forward, were high point men for the winner each scoring five field goals and a free throw.

DAVIS HIGH

Jaggy Davis was high point man for his team with two field goals and four foul shots.

Pickaway County Basketball Loop Opens With Good Games

The Pickaway-co basketball league opened in all its splendor Friday evening with many games being contested to the final whistle. Several upsets were found as the lineup is scrutinized, the principal one of which is New Holland's two point defeat of Ashville's team 18 to 16.

Following are the complete results of both the boys' and the girls' games.

BOYS' GAMES

Perry-twp, 24, Monroe-twp, 18, at Atlanta.

Deercreek-twp, 22, Scioto-twp, 7, at Scioto-twp.

Pickaway-twp, 18, Saltcreek-twp, 16, at Pickaway-twp.

New Holland, 18, Ashville, 16, at New Holland.

Jackson-twp, 42, Washington-twp, 16.

Muhlenberg-twp, 15, Walnut-twp, 9.

GIRLS' GAMES

Perry-twp, 29, Monroe-twp, 12, at Atlanta.

Scioto-twp, 33, Deercreek-twp, 11, at Scioto-twp.

Pickaway-twp, 2, Saltcreek-twp, 0, (Forfeit)

Ashville, 37, New Holland, 11, at New Holland.

Jackson-twp, 13, Washington-twp, 11, at Jackson.

Walnut-twp, 24, Muhlenberg, 7, at Darbyville.

Both games at Atlanta were very fast with the Perry-twp athletes, both boys and girls, showing slightly more class than their opponents. The Perry girls jumped into an early lead which they held throughout the contest.

The boys battle was a real one with only a few separating the teams at any time. A last period spurt put the game on the ice for the winners. Joe Lynch refereed

the game.

DEERCREEK-SCIOTO

The Williamsport girls' team couldn't cope with the rapid fire offensive of the Scioto-twp girls and at the start of the game they found themselves under a handicap that they couldn't overcome. The score was 33 to 11.

Williamsport boys put a much different complexion on the evenings activities when they stepped out to grab a well-deserved victory from the Scioto boys, 22 to 7.

Anderson and Tommy Tomlinson were the stars of the Williamsport team while Davis, McClure and Lamb played good ball for the losers. Steven, Columbus, refereed the games.

SALT CREEK-PICKAWAY

The game between the Saltcreek and Pickaway-twp girls was fast for three periods but with the score standing 13 to 11 at the start of the fourth session, Coach Dyer of the Saltcreek team removed his team from the floor claiming that many personal fouls called should have been technicals. The game was given to the Pickaway girls by a score of 2 to 0.

Pickaway boys, largely through the work of Graves, a substitute came from behind to defeat the Saltcreek boys in an overtime game by a score of 18 to 16.

Saltcreek outplayed the losers in the first half which finished 10 to 4 in their favor, but Graves going hot they came from behind to tie the count with 15 seconds to play. Paxton scored an action goal to place the game on the right side of the ledger. Spangler starred for Saltcreek. George Stoker refereed the game.

ASHVILLE-NEW HOLLAND

A poorly played first half by Ashville five gave New Holland,

defending champs the edge they needed and although Ashville spurred considerably in the final half of the game they overcame Saltcreek lead. The game ended 18 to 16.

Ashville girls, however, upheld the prestige the boys lost when they experienced little trouble in putting the New Holland girls down by a 37 to 11 count. Young, Conrad and Schlegel starred for the winners while Timmons was best for the losers.

JACKSON-WASHINGTON

The Jackson and Washington girls furnished the thrill of the evening in their contest which ended 13 to 11 in favor of Jackson.

Neither team held much of an edge at any time with the score zig zagging back and forth throughout the four periods.

Fortner and Wagner starred for Jackson, and Marshall and Goodman for Washington.

The Jackson boys scored the highest total of the opening night with 42 against Washington Boys 16. Price, Wagner and Thatcher were best for the Lapsle-coached quintet with Valentine and Leist the best for the losers.

MUHLENBERG-WALNUT

In a fast defensive game, the Muhlenberg boys proved too good for the Walnut boys and at the end of the contest held a lead of 15 to 9.

Miss Peters' girls showed class to balance the lost contest of the boys team by winning their game 24 to 7.

The games were played at Darbyville.

With the first weeks schedule played, county coaches know just what the strength of their teams are and can prepare accordingly for the strenuous schedule which awaits them.

THOSE MAIL CONTRACTS

During the year the United States Shipping Board sold 266 vessels to private owners for a total of about \$29,000,000. That sum is a very small fraction of what it cost the government to build the ships to meet war-time needs.

Now the Shipping Board opposes the plan of awarding ocean mail contracts to the lowest bidder regardless of whether his ships are former government vessels. The Board is said to consider itself under moral obligations to furnish the mail revenue to purchasers of its lines.

The Interdepartmental Commission holds the contracts should go to lowest bidders, and the average American citizen will agree off-hand with that body.

Just what it is about buying good ships at bargain prices—and they're not all paid for yet—that entitles the buyer to special favors in mail contracts is hard for simple minds to grasp. There are times when the Shipping Board seems just like a big-hearted Santa Claus.

Another thing about mailing those Christmas gifts early—you're more likely to get a return gift this year.

From the way China and Russia are scrapping about railroads, we suppose there ought to be an International Commerce Commission to regulate such things.

Amusement Only Secondary

The amusements of life can never be regarded as anything more than secondary or even tertiary. Work is the real fun, and it is the only justification for one's existence. When a person has come to feel that work is wearying, and idle amusement the only thing worth considering, he has really lost his soul.—Canon Sinker.

Miniature Engine

Among the exhibits at the model engineers' exhibition in London was a horizontal engine so small that it is almost impossible to see the working parts in motion without a magnifying glass. It is only a quarter of an inch long and is worked by compressed air. A hair from the head of the wife of the model maker forms the driving belt.

Beehive Population

The number of bees in the average hive during the time of storing surplus honey is between 50,000 and 75,000. During the fall and early winter the colony decreases in number and by spring it is usually reduced to 10,000 or 15,000.

"The Masked Hostess"

by BLAIR STEVENSON

CHAPTER XXV.

TWO of the grooms at the club, seated on the edge of the low board fence which surrounds the polo field at Meadowbrook, were watching the man dribbling the ball down the field while his pony tore beside it at a gallop.

"And on a green pony, too," cried one of the grooms, jumping to his feet in his excitement. "If ain't human, 'Arry. You've got to doff your 'at to Stefano. 'E's the greatest player in the world." The other groom demurred.

"Appy Jack could 'old him if he were 'ere—'ad just a paper thin edge on 'im. Not that the Spaniard ain't top 'ole. But two polo players like Jack Van Slaick can't be born."

They did not know that he had come out on the field to do some specially intricate and important thinking. And that because the thinking was as important as he deemed it to be he was doing it in Spanish.

Stefano always thought most accurately and successfully on horseback and with a polo mallet in his hand. And as his changes of ponies galloped and turned sharply under him he was thinking about Nathalie—whether he ought to follow his heart and gather her to it; or his head and "go wide" till he learned more accurately her worldly situation and the extent of the money which she was to receive in some mysterious way after Ferris had caught up with her.

He was fairly certain, from gossip among polo and hunting men and in society generally, that her free spending father had been pretty close to the end of his money tether when he died, and could not have left Nathalie a very substantial inheritance. Had she any other expectations? He knew nothing in that direction, but was resolved to learn if he could at Mrs. Pemberton Swayne's where he was to dine that night before motoring over to The Firs. Mrs. Swayne, having reinstated him in her plans for Sylvia's future comfort and security, had pressed him to come just before she left The Firs that morning at the finish of the masked party.

And at the peak of his problem was the difficulty that the two days, at the end of which Nathalie had indicated that she would be ready to listen to him as a lover and remove her mask, would be up that night when he joined her at The Firs. What if The Firs, shabby and down at heel and in legal difficulties, was all she had? He thought of the trust they had with a little shiver.

"Wouldn't be fair to her, what? he said aloud, and in English, so as to cheat his conscience a shade the better. "If it should come out that we were both paupers, then what? Deuced awkward for both sides. Better go wide I fancy for another day till I learn what's what." Between 8 and 9 o'clock he drove to Flintstone and the dinner party that was expecting him there.

"And yet," he thought again, as he entered the gates, "from what that bouncer Ferris intimates, she must have money due from some quarter. But I shan't be precipitate till I've looked harder into it. Wonder how I'll set about that part?"

Sylvia got him to herself within a few minutes after he had entered the house.

Comfort for Plain Women

"There is no such thing as an ugly woman," declares a famous European beauty doctor. "Every woman has some point which can be brought out and used to hide others."

Stefano, Holding His Pony Right on the Ball, Galloped Along It, Across It and Over It.

"He has something just as good. He has a headache. Monty's not dumb a bit. He has hold of something very good. But that's a secret and I'm not to breathe it."

Mrs. Swayne came over full of graciousness.

"Of course I shouldn't interrupt your confidences"—here Sylvia pinched Stefano—"but you haven't forgotten the particular request I left with you last night, have you? Captain Stefano, about poor, dear Nathalie. I have been thinking about her incessantly since we spoke of her last night, and it has occurred to me as almost certain that she will visit 'The Firs' some night; probably when you give another masked party."

Sylvia pinched Stefano again and he had to struggle to keep his mouth shut, in light of the fact that to all intents and purposes he was Mrs. Swayne's man. She must have money due from some quarter. But I shan't be precipitate till I've looked harder into it. Wonder how I'll set about that part?"

Sylvia got him to herself within a few minutes after he had entered the house.

Stefano left for The Firs just before twelve. Reaching there on the stroke of the hour he found that another vehicle was at the door before him. It was a motor truck, well loaded and covered with a tarpaulin. A young man in evening clothes jumped down from beside the driver. It was Monty Delaine.

He was in that state which made him take off his hat and toss it into a tree. "Bring forth your myrmidons! a minions, Stef, and have 'em unload what's on my wagon. Champagne—old boy. Oceans of it. I put through the deal of a lifetime today and tonight you don't pull a cork."

DR. COPELAND SAYS— NEATNESS USUALLY A SIGN OF EFFICIENCY

Take Advantage of the Many Aids to Cleanliness and Health, Urges Dr. Copeland, for "Soap and Water" Has Landed More Than One Good Job.

By ROYAL S. COPELAND, M. D.
United States Senator from New York.
Former Commissioner of Health, New York City.

"CLEANLINESS is next to Godliness," is an old saying that has more truth than fiction in it. With all their bad habits, even the ancients realized the value of cleanliness. Never has the world had greater facilities to aid in this so necessary habit of cleanliness than it has today.

DR. COPELAND

I saw the other day the heading to a newspaper article. It read, "Landing a Job with Soap and Water." The story went on to tell how a busy employment expert read the character of applicants for positions from their appearance. He complained particularly of untidiness among some of the girls seeking gainful positions.

What are the standards set up by the employer today? Without exception we might say that preference is given to the individual who is well-groomed, tidy, clean! Ability? Yes, certainly that is very necessary, but invariably the appearance is a pretty good test of character and of ability.

One employer said: "In selecting prospective employees, we of course aim to take only those who appear to be naturally clean and neat. Untidiness in dress and personal appearance generally denotes a person careless and slipshod in other respects. The neater employees in the office and factory are the more efficient."

The girl whose clothes are neat, not necessarily expensive, and whose face is made clean before makeup is applied has a good chance to win. Well arranged and shining hair tells of immaculate care. This will be noted, as well as hands that are clean and well-kept. A person of this description will receive notice wherever she is.

The young man whose every movement denotes ability and keenness of mind almost unfailingly presents a good appearance as to dress and cleanliness. He is the person, too, who gets the most out of life at every turn.

Every facility is given us today to promote cleanliness and good health. We cannot have health and cleanliness, the one without the other. They are twins. Never before has the world had so many aids to cleanliness. There are private and public baths, spick and span offices, department stores and factories in which to work. There is every contrivance to make the home clean and livable.

Given fresh air and sunlight, clean hands and good health you cannot help but radiate the right sort of personality. These are worth much more than dollars and cents. They give security in the work you have to do, in the friends you make and the home that may be yours.

THEATRES

AT THE CLIFTONA

Stars on parade!
Stars of stage and screen; stars of vaudeville, opera and radio, stars of all our wonderful twentieth century amusement media in the greatest cast ever assembled for one motion picture!

One by one they pass before you with dance, song or comic skit it Metro-Goldwyn-Mayer's "The Hollywood Revue," the gigantic full-length all talking, singing and dancing feature coming Sunday to the Cliftona theatre.

Twenty new song hits and novelty dances, abundant "gags" and laugh, tuneful melodies and dialogue that sparkles, to say nothing of the largest dancing chorus of beautiful girls that ever dazzled the bald-headed row.

This is the material Metro-Goldwyn-Mayer has compounded into the greatest all-star musical attraction ever produced on stage or screen. The talkie era moves fast indeed!

AT THE GRAND

Sweet, petite Dolores Costello with Ralph Graves and Audrey Ferris play the leads in the "Glad Rag Doll" which appears at the Grand theatre Sunday and Monday.

The story is of backstage life and the romances of a show girl. Dolores Costello captivates as a lady of love, who finds the hearts of her admirers are stepping stones to the man she wants.

A Universal talking news reel and a talking comedy are listed.

AT THE MET

Gilda Gray, star of "Piccadilly," a World Wide imported special sound picture, which comes to the Met theatre on Sunday and Monday in giving a message to girls who want to make good on the screen, merely said, "Dance Little Lady," referring to Noel Coward's latest song hit.

The Shimmy Queen began her own dancing career at the age of seven and has kept it up ever since and has won recognition for her grace both here and abroad.

"Dancing gives one grace," she said, "and grace is more important than anything else in the movies. Of course you have to have other qualities. A beautiful face is needed and some ability, yes, and a few brains, although most persons do not believe it."

Sore Throat? Don't Gargle

This Doctor's Prescription Gives Quicker, Better Relief
Don't suffer the pain and discomfort of sore throat. Use a doctor's prescription called Throxine guaranteed to relieve with the very first swallow. Gargles and salves are too slow and if they do relieve, it is usually only temporary.

Throxine has double action—it relieves the soreness and goes direct to the internal cause. It contains no harmful drugs and is safe and pleasant for the whole family. There is nothing better to stop coughing due to irritated throats. Just ask for Throxine, put up ready for use in 35c., 60c., and \$1.00 bottles. Money back if not relieved. Sold by Hamilton & Ryan and all other good stores.

HALL SKATING

By Don Rader

A few students of Circleville high take great pleasure in making short dashes down the hall and sliding merrily along until they meet with an accident by bumping into someone. Some think that by this run-and-coast method they can get into their classes quicker.

The marble floors seem to provide excellent means of having physical education and pleasure at the same time for these students. Even the hardwood floors show their marks.

Before the tardy bell rings, the quietness of the lower corridor is at times disrupted by this kind of students. They loiter in the hall or on the outside of the building whenever the bell rings they dash madly for their class rooms, and in certain cases, the teachers have been indeed fortunate to escape "a straight arm" at the hands of these charging book carriers.

Students fond of running should make themselves candidates for track or football where their speed and ability to crash the line would certainly be appreciated by the student body and the coach.

If a visitor of the school should see a careless student dashing and coasting down the hall towards him, it would give the might-be-victim a bad impression of our school, and it is certain that no student wishes to weaken the esteem in which our institution is held by others. Therefore it would be a great boost to the school if these thoughtless students should get busy and take heed to the hint of the authorities and the request of their classmates for a quieter school.

WHY NOT A PEP CLUB?

By Virginia Nelson

Where is that long talked-of "Pep Club"? A Pep Club would promote enthusiasm in school activities. Now that the basketball season is present why not organize a pep club and make it a success to the best of our ability?

The president of each class has sent out a proclamation concerning the "Pep Club" urging his class to cooperate with the other classes and organize a "Pep Club" but the students have not responded well to the call.

Other schools have "Pep Clubs" why can't we? Do you ever stop to think that the team doesn't feel nearly so much like playing when there isn't much pep displayed by the student body?

If we could organize a "Pep Club" and make it a success we would be urging our football and basketball teams to victories. They would feel more like winning victories for us if we did something in helping them to win victories.

Our school needs athletic spirit first of all. Could a "Pep Club" be a success without school spirit? No. Then why not work up that school spirit and start a "Pep Club" before the first basketball game?

A Pep Club would not be an expense to anyone, but look at the good the club would do in helping to promote athletics in C. H. S. Every year we would be able to make our sports better with the student body taking a greater interest in them.

Therefore, fellow students, let's ask the president of the Athletic Association to organize a "Pep Club" and show our school spirit.

ANOTHER REASON FOR A PEP CLUB

By Addison Zeimer

Students of Circleville High let's get together to form a "Pep Club." By this I mean a club which will create school spirit at rallies and contests, and sell tickets to the downtowners, who do not want to come to a game if the student body isn't out there yelling for its team. Such a club will get more people to the games which mean more money to purchase suits to send teams in action properly equipped.

ON PEP AND CHEERLEADERS

By Paul Radloff

We need something to create more school spirit. Why not have a cheer leader chosen from each class? Then allow each class to practice yell, so that more collective cheering will be shown when the whole student body gets together. Perhaps this would have a tendency to keep pupils from giving thin excuses for cutting rallies.

One of our cheerleaders is going out for athletics. Now is the time to select those who are to help the remaining leader boost our pep percentage.

RESERVE-HI-Y PARTY IS GREAT SUCCESS

The joint party of the Girl Reserve and Hi-Y members was celebrated at C. H. S. Tuesday evening. The party was very much a success and was enjoyed by all. All committees who were responsible for this night of merriment receive a vote of thanks.

About 55 members of the Girl Reserve and Hi-Y assembled in the auditorium to hear and see the program. The program was a radio quality group presentation. No person on the program could be seen as each was hidden behind the screen. Pat Kirwin did the announcing.

Probably the greatest feature on the program was the sly sayings of Sambo and Hamlet, two negro comedians, depicted by Hugh Cartwright and Robert Rection. The audience were kept in laughter throughout the entire proceedings.

A musical contest with five contestants was also held. Each contestant was numbered and sang behind the screen, accompanied by Elizabeth Roundhouse at the piano. Hugh Cartwright who sang "Love" was declared winner by the judges. Mr. and Mrs. E. I. Gephart and Mr. and Mrs. V. D. Keeler. Marie Richey also added much to the program when she sang "Pagan Love Song." Another musical selection enjoyed by all was a duet, by Elizabeth Roundhouse and Charles Kirkpatrick, entitled, "Ah! Sweet Mystery of Life."

Dorothy M. Glick opened the program with a piano solo.

After the program the guests assembled in the hall and spent some time in playing games led by Misses Rains and Watson. The guests were then escorted to the domestic science rooms where a delicious lunch consisting of fruit salad, potato chips, sandwiches and olives, prepared by Evelyn Steele, Myrname Hitchcock, Grace Steele and Florence Celler, was served in candle light.

The tables were decorated with the color scheme of the Girl Reserve and Hi-Y which was red and white and blue. During the course of the lunch, Charles Maynard McAllister was called on by Hi-Y president, Hugh Cartwright to talk for the Hi-Y. "Goofy" replied, "I don't see why that the kids always picked on me." A feminine guest replied, "Goofy, it must be your good looks." John Gilbert then paid the young girl, his just debts.

Cleo Brown talked for the Girl Reserve, expressing that she was glad to be a member of one of these fine organizations. The party disbanded with everyone expressing himself, as enjoying a very delightful evening.

Committees responsible for this event were: Florence Celler, Myrname Hitchcock, Grace Steele, Edgar Clark, and Richard Stump; Program, Virginia Richey, Mildred Ritt, Robert Rooney, and John Heskell; Decorating, Hugh Cartwright, Charles Kirkpatrick, and Virginia Richey.

YATES AND HARRIS MAKE ALL STATE ORCHESTRA

Helen Yates and Gladys Harris, seniors, were notified Wednesday by Edith M. Keller, state supervisor of music, that they were selected to play first violin in the All State Symphony orchestra in Columbus, Dec. 27.

Helen and Gladys are the two successful of the nine high school orchestra applicants reports C. F. Zaenglein, director.

The All State orchestra will be made up of 125 students from all over Ohio. C. H. S. should feel proud of its two successful applicants as there are 83 counties in Ohio, and if two had been selected from each county, this would have been 176 successful applicants.

The letter stated, "You are to be congratulated upon receiving this fine distinction, since we had many more applicants than we could accept. We trust that you will feel the responsibility and trust of representing your high school and that you will be thoroughly prepared on the part you are to play." Signed Edith M. Keller.

The concert will be given in the auditorium of Central high school, West Broad-st., at 7:45 p.m. Eugene J. Vogel, professor of music, Ohio State University will act as director.

Although no announcement of the broadcast has been made, it is hoped that the program will be sent to the many local people desiring to listen in at home.

HOME EC. ENTERTAINS

Members of the Home Ec. Club enjoyed a delightful evening at the home of Pres. Steele Monday. After card playing, refreshments were served. The committee in charge of the refreshments consisted of Virginia Nelson and Pauline Acord.

The club is composed of the following members: Evelyn Steele, president; Mable Good, vice-president; Myrname Hitchcock, secretary; Pauline Acord, Virginia Nelson, Hilda Thomas, and the advisor, Miss Pigman.

Past Largely Mythical

Those who compare the age in which their lot has fallen with a golden age which exists only in imagination, may talk of degeneracy and decay; but no man who is correctly informed as to the past will be disposed to take a morose or desponding view of the present. —Thomas Macaulay (1800-1859), "History of England."

Sign Language

Motoring along, the signs offer infinite diversion. A smile-provoker was one on a lumber yard which said: "Courtesy, Service and Lumber"; another, painted on the side of a brick building, announced "Hardware, Implements and Tacks," while still another proclaimed: "Butter, Eggs, Poultry and All Kinds of Junk." —Indianapolis News.

Milton's Prophecy

"Methinks I see in my mind a noble and puissant nation rousing herself like a strong man after sleep, and shaking her invincible locks; methinks I see her as an eagle mewing her mighty youth, and kindling her undazzled eyes at the full mid-day beam—John Milton (1608-1674), "Areopagitica."

Revenue From Spanish Moss

New Orleans, La., raises a \$1,000,000 crop annually in its two city parks. Spanish moss, which festoons oak trees, was sold for approximately \$1,000,000, the money being used for city upkeep. The moss is gathered and cured for six months. It is then ginned and sold to mattress manufacturers.

HALL SKATING

By Don Rader

A few students of Circleville high take great pleasure in making short dashes down the hall and sliding merrily along until they meet with an accident by bumping into someone. Some think that by this run-and-coast method they can get into their classes quicker.

The marble floors seem to provide excellent means of having physical education and pleasure at the same time for these students. Even the hardwood floors show their marks.

Before the tardy bell rings, the quietness of the lower corridor is at times disrupted by this kind of students. They loiter in the hall or on the outside of the building and when the bell rings they dash madly for their class rooms, and, in certain cases, the teachers have been indeed fortunate to escape "a straight arm" at the hands of these charging book carriers.

Students fond of running should make themselves candidates for track or football where their speed and ability to crash the line would certainly be appreciated by the student body and the coach.

If a visitor of the school should see a careless student dashing and coasting down the hall towards him, it would give the might-be-victim a bad impression of our school, and it is certain that no student wishes to weaken the esteem in which our institution is held by others. Therefore it would be a great boost to the school if these thoughtless students should get busy and take heed to the hint of the authorities and the request of their classmates for a quieter school.

WHY NOT A PEP CLUB?

By Virginia Nelson

Where is that long talked-of "Pep Club"? A Pep Club would promote enthusiasm in school activities. Now that the basketball season is present why not organize a pep club and make it a success to the best of our ability?

The president of each class has sent out a proclamation concerning the "Pep Club" urging his class to cooperate with the other classes and organize a "Pep Club" but the students have not responded well to the call.

Other schools have "Pep Clubs" why can't we? Do you ever stop to think that the team doesn't feel nearly so much like playing when there isn't much pep displayed by the student body?

If we could organize a "Pep Club" and make it a success we would be urging our football and basketball teams to victories. They would feel more like winning victories for us if we did something in helping them to win victories.

Our school needs athletic spirit first of all. Could a "Pep Club" be a success without school spirit? No. Then why not work up that school spirit and start a "Pep Club" before the first basketball game?

A Pep Club would not be an expense to anyone, but look at the good the club would do in helping to promote athletics in C. H. S. Every year we would be able to make our sports better with the student body taking a greater interest in them.

Therefore, fellow students, let's ask the president of the Athletic Association to organize a "Pep Club" and show our school spirit.

ANOTHER REASON FOR A PEP CLUB

By Addison Zeimer

Students of Circleville High let's get together to form a "Pep Club." By this I mean a club which will create school spirit at rallies and contests, and sell tickets to the downtowners, who do not want to come to a game if the student body isn't out there yelling for its team. Such a club will get more people to the games which mean more money to purchase suits to send teams in action properly equipped.

ON PEP AND CHEERLEADERS

By Paul Radcliff

We need something to create more school spirit. Why not have a cheer leader chosen from each class? Then allow each class to practice yells, so that more collective cheering will be shown when the whole student body gets together. Perhaps this would have a tendency to keep pupils from giving thin excuses for cutting rallies.

One of our cheerleaders is going out for athletics. Now is the time to select those who are to help the remaining leader boost our pep percentage.

RESERVE—HI-Y PARTY IS GREAT SUCCESS

The joint party of the Girl Reserve and Hi-Y members was celebrated at C. H. S. Tuesday evening. The party was very much a success and was enjoyed by all. All committees who were responsible for this night of merriment receive a vote of thanks.

About 55 members of the Girl Reserve and Hi-Y assembled in the auditorium to hear and see the program. The program was a radio quality group presentation. No person on the program could be seen as each was hidden behind the screen. Pat Kirwin did the announcing.

Probably the greatest feature on the program was the sly sayings of Sambo and Hamlet, two negro comedians, depicted by Hugh Cartwright and Robert Rector. The audience were kept in laughter throughout the entire proceedings.

A musical contest with five contestants was also held. Each contestant was numbered and sang behind the screen, accompanied by Elizabeth Roundhouse at the piano. Hugh Cartwright who sang "Love" was declared winner by the judges. Mr. and Mrs. E. I. Gephart and Mr. and Mrs. V. D. Keeler. Marie Richey also added much to the program when she sang "Pagan Love Song." Another musical selection enjoyed by all was a duet, by Elizabeth Roundhouse and Charles Kirkpatrick, entitled, "Ah! Sweet Mystery of Life."

Dorothy M. Glick opened the program with a piano solo.

After the program the guests assembled in the hall and spent some time in playing games led by Misses Rains and Watson. The guests were then escorted to the domestic science rooms where a delicious lunch consisting of fruit salad, potato chips, sandwiches and olives, prepared by Evelyn Steele, Myriam Hitchcock, Grace Steele and Florence Cellar was served in candle light.

The tables were decorated with the color scheme of the Girl Reserve and Hi-Y which was red and white and blue and white. During the course of the lunch, Charles Maynard McAllister was called on by Hi-Y president, Hugh Cartwright to talk for the Hi-Y. "Goofy" replied, "I don't see why that the kids always picked on me." A feminine guest replied, "Goofy, it must be your good looks." John Gilbert then paid the young girl, his just debts.

Cleo Brown talked for the Girl Reserve, expressing that she was glad to be a member of one of these fine organizations. The party disbanded with everyone expressing himself, as enjoying a very delightful evening.

Committees responsible for this event were: Florence Cellar, Myriam Hitchcock, Grace Steele, Edgar Clark, and Richard Stump; Program, Virginia Richey, Mildred Ritt, Robert Rooney, and John Heiskell; Decorating, Hugh Cartwright, Charles Kirkpatrick, and Virginia Richey.

YATES AND HARRIS MAKE ALL STATE ORCHESTRA
 Helen Yates and Gladys Harris, seniors, were notified Wednesday by Edith M. Keller, state supervisor of music, that they were selected to play first violin in the All State Symphony orchestra in Columbus, Dec. 27.

Helen and Gladys are the two successful of the nine high school orchestra applicants reports C. F. Zaenglein, director.

The All State orchestra will be made up of 125 students from all over Ohio. C. H. S. should feel proud of its two successful applicants as there are 88 counties in Ohio, and if two had been selected from each county, this would have been 176 successful applicants.

The letter stated, "You are to be congratulated upon receiving this fine distinction, since we had many more applicants than we could accept. We trust that you will feel the responsibility and trust of representing your high school and that you will be thoroughly prepared on the part you are to play." Signed Edith M. Keller.

The concert will be given in the auditorium of Central high school, West Broad-st., at 7:45 p.m. Eugene J. Weigel, professor of music, Ohio State University will act as director.

Although no announcement of the broadcast has been made, it is hoped that the program will be sent to the many local people desiring to listen in at home.

HOME EC. ENTERTAINS
 Members of the Home Ec. Club enjoyed a delightful evening at the home of Pres. Steele Monday. After card playing, refreshments were served. The committee in charge of the refreshments consisted of Virginia Nelson and Paulene Acord.

The club is composed of the following members: Evelyn Steele, president; Mable Good, vice-president; Myriam Hitchcock, secretary-treasurer; Paulene Acord, Virginia Nelson, Hilda Thomas, and the advisor, Miss Pigman.

Mythological

The nine muses were the mythical daughters of Jupiter and Mnemosyne, goddess of memory, and presided over the arts and sciences as follows: Calliope, epic poetry and rhetoric; Clio, history; Erato, love poetry; Thalia, festivals and comedy; Melpomene, tragic poetry; Terpsichore, dancing; Euterpe, instrumental music; Polyhymnia, singing and rhetoric; Urania, astronomy.

Past Largely Mythical

Those who compare the age in which their lot has fallen with a golden age which exists only in imagination, may talk of degeneracy and decay; but no man who is correctly informed as to the past will be disposed to take a morose or desponding view of the present. —Thomas Macaulay (1800-1859), "History of England."

Sign Language

Motoring along, the signs offer infinite diversion. A smile-provoker was one on a lumber yard which said: "Courtesy, Service and Lumber"; another, painted on the side of a brick building, announced "Hardware, Implements and Tacks," while still another proclaimed: "Butter, Eggs, Poultry and All Kinds of Junk." —Indianapolis News.

Milton's Prophecy

"Methinks I see in my mind a noble and puissant nation rousing herself like a strong man after sleep, and shaking her invincible locks; methinks I see her as an eagle mewing her mighty youth, and kindling her undazzled eyes at the full mid-day beam.—John Milton (1608-1674), "Areopagitica."

Revenue From Spanish Moss

New Orleans, La., raises a \$1,000,000 crop annually in its two city parks. Spanish moss, which festoons oak trees, was sold for approximately \$1,000,000, the money being used for city upkeep. The moss is gathered and cured for six months. It is then ginned and sold to mattress manufacturers.

Pendulum Clock

A pendulum clock gained, owing to the increase of gravity with latitude, about one minute and twenty seconds a day when taken from Ottawa to the mouth of Mackenzie river, Northwest territories, by the Dominion observatory in connection with its gravity work. Taken about five thousand feet up a mountain side in British Columbia it lost about thirteen seconds daily.
